Spring 2020 OAEE Grader
Available Positions

General Grader Eligibility Requirements
- Must be a current M.Eng., M.S., or Ph.D. UMD student
- Must be in good academic standing (i.e. have a cumulative GPA of 3.0 or higher)
- Must NOT be enrolled in the Spring 2020 course you are applying to support in that semester
- It is preferred that you already hold a permanent Social Security Card and be authorized and eligible to work in the United States.
  - If you are offered a position and do NOT hold a permanent Social Security Card, you must be available in the United States to go through the process of obtaining one by two weeks before the start date of the semester or the offer will be rescinded. This process takes approximately 30 days if a student is proactively taking all steps needed in a timely manner. For Spring 2020, this means a copy of the card (not the receipt) must be submitted to OAEE by January 13th.
- Must be able to work up to 20 hours per week (i.e. can not hold another UMD position unless the total hours equate to less than 20)

If you do not meet all of the requirements above, please do not apply for a Grader position.

Please be aware that Teaching Assistant positions may also be available.

General Grader Position Information
This position is for the Spring 2020 semester only.

This position is compensated at $16.65 per hour and is an hourly position only. This position does not have any tuition remission or benefits.

Graders will provide up to 20 hours of service per week and support the instruction of a course through such duties as grading and managing Canvas.
Spring 2020 OAEE Grader Positions Available
Grader positions will be added as they become available and deleted as they become filled. Applications are considered on a rolling basis.

- **ENPM612  System and Software Requirements**
  - Preferences:
    - Previous grader experience
  - Requirements:
    - Knowledge of software requirements and engineering. Communication and interpersonal skills.
  - Application: [https://forms.gle/Bvu7TmT1SEB9KM1t9](https://forms.gle/Bvu7TmT1SEB9KM1t9)
  - Posted: 1/6/2020. Applications will be evaluated on a rolling basis until filled.

- **ENPM614  Software Testing and Maintenance**
  - Preferences:
    - Previous grader experience
  - Requirements:
    - Knowledge of software requirements and engineering. Communication and interpersonal skills.
  - Application: [https://forms.gle/Smp1RAfi2ujB9KAb8](https://forms.gle/Smp1RAfi2ujB9KAb8)
  - Posted: 1/6/2020. Applications will be evaluated on a rolling basis until filled.

- **ENPM808E  Managing Software Engineering Projects**
  - Preferences:
    - Completed one full year of graduate study at UMD
    - Have taken ENPM808E previously
  - Requirements:
    - Knowledge of software engineering principles
  - Application: [https://forms.gle/SQg2pBu9w2o35BoWA](https://forms.gle/SQg2pBu9w2o35BoWA)
  - Posted: 1/7/2020. Applications will be evaluated on a rolling basis until filled.

- **ENPM627  Environmental Risk Analysis** Newly Added
  - Requirements:
    - be able to perform simple environmental fate and transport modeling calculations (e.g., mass balance calculations, implementing the advective-diffusive equation, modeling groundwater flow with Darcy’s law, and modeling air concentrations for Gaussian plumes)
    - experience performing risk analysis calculations
    - have taken environmental engineering courses that cover environmental fate and transport modeling
have taken a course or courses on risk analysis, such as probabilistic risk analysis
